EDUCATION

University of Florida

Aug. 2025 – May 2029

Bachelor of Science in Electrical Engineering

Gainesville, FL

- **Cumulative GPA:** 3.8/4.0
- **Coursework:** C++ for Engineers, Physics 1 w/ Calculus 1, Calculus 3, Differential Equations, Computer Aided Graphics and Design

PROJECTS

Gatorlator (Chrome Extension) | *Swamphacks 2026* · github.com/suupreme/gatorlator

Jan. 2026

- Awarded **Best Education, Accessibility, & Social Impact Project** at SwampHacks 2026
- Engineered a Chrome extension to capture active tab audio and provide real-time, low-latency translation, and Text-to-Speech (TTS) for accessibility in educational environments
- Integrated **Deepgram** for speech-to-text, **DeepL** for translation, and **ElevenLabs** for high-quality audio output, managing asynchronous API calls and audio streams within a Chrome Service Worker

Personal Home-Lab & Network Infrastructure | *Debian, Raspberry Pi, Docker* Dec. 2025 – Jan. 2026

- Engineered a dual-node home server environment using a Raspberry Pi 3 B+ and a dedicated Debian-based PC to host network-wide services
- Deployed **Pi-hole** for DNS-level ad blocking and configured **Tailscale** as a secure VPN exit-node, enabling encrypted remote access to the home network
- Implemented **Up-Snap** for Wake-on-LAN (WoL) functionality and utilized **Pterodactyl** to manage containerized game server instances, optimizing resource allocation
- Automated service deployment and remote management using SSH and Linux CLI, focusing on system uptime and power efficiency

Web-Based Geolocation Tool | *IIT ESI Program* · github.com/waychlate/gps-test

Jul. 2024

- Developed a GPS triangulation system using Javascript, HTML/CSS, and **Leaflet.js**, enabling IIT students to locate hidden objects on campus using real-time web geolocation
- Collaborated with the ESI Computer Science class lead to design an educational prototype for learning triangulation concepts

LEADERSHIP & INVOLVEMENT

Future Problem Solving Program (FPSPI)

Aug. 2022 – May 2023

Team Member | 1st Place Florida CmPS State Competition

Palm Coast, FL

- Awarded 1st Place at the Florida CmPS State Competition for identifying and implementing a community-driven solution to a local safety issue
- Established a student-led self-defense club by presenting formal proposals to school administration
- Managed project outreach and marketing by designing promotional materials, leading to increased student engagement and awareness

SKILLS

Technical Skills : Python, JavaScript, HTML/CSS, Lua, C++)

Operating Systems : Windows, Linux, Unix/macOS
